

LION

Episode: The Lion's Pounce (Hunters)

Distribution: Sub-Saharan Africa and India

The Scoop: If you're starving, don't rely on lions to catch your dinner. These cats are successful only 25 percent of the time -- but when they're on, watch out. Several hunters will chase the prey toward a lion in waiting, which charges, knocks the prey off balance, then suffocates it with a bite to the throat.

Status: Vulnerable
